

Mangosteen Pool Villas & Suites Estate

Mangosteen Resort and Spa,

in collaboration with GFAB
architectural firm,

proudly presents -
eco-friendly homes -
designer villas -

Mangosteen Pool Villas

Mangosteen Pool Villas is a collection of 25 modernistic designer homes situated on a lush tropical hill at the Southern tip of Phuket.

Each 2-storey villa comes with a private pool and overlooks the verdant undulating landscape.

Expansive outdoor and indoor areas facilitate a balanced modern island life.

Rain or shine, this beautiful functional home offers residents comfort and style.

Located near Nai Harn Beach, this development sits comfortably on a side road perpendicular to the main street.

Away from the madding crowd, yet centrally located near top resorts and spas, thus residents enjoy a wide variety of dining and entertainment options in the area without compromising the exclusivity and tranquility of the development.

Being affiliated with the Mangosteen Resort and Spa, residents can avail themselves of the impeccable facilities being offered.

This includes a world-class spa, a well-fitted gym, a swimming pool with a deep end for diving lessons and a restaurant serving healthy delicious food.

Mangosteen Suites Estate

Mangosteen Suites consists of 24 eco-friendly apartments. Designed by the GFAB team, these living spaces make use of changes in seasonal wind patterns to help cool the homes.

Units are fully-furnished with high-quality materials, all done in a simple clean modern style.

Intimate areas, under the clever play of the architect, take on different facades during various times of the day, thanks to the exterior wooden lattice.

A playful warm West-bound breeze finds its way through these modern homes during the dry season, bringing along with it stirrings of life.

Monsoon months see the arrival of East-bound winds. Gently, they move in the direction of mainland, cooling everything in its way.

This intelligent positioning is the creation of the GFAB team. Led by Gary Fell, GFAB is known for their excellent innovative building ideas.

Facing the azure Andaman Sea, the living areas come with fantastic ocean views.

Space, a luxury for many, is abundant in these bright sizable units.
